

Redcliff Family Dental
Post Oral Sedation Transportation Information

Patient Name _____

Date of treatment _____

For your safety, a responsible adult must drive you from your dental appointment and stay with you until the sedation has worn off. Please advise your driver that they are expected to be available prior to your appointment for instructions before your treatment has begun. This person must be available for questions during treatment. Post-operative instructions will be given to the adult that drives you home and stays with you.

Please ensure cellphones are not on silent mode.

Keep in mind that the person you choose to be your escort/driver will be the same person that we will be asking to discuss your dental treatment with, permission to possibly change dental treatment care during the appointment, and give your postoperative instructions to. Please choose someone that you trust to share this information with.

Without a driver and a responsible adult to observe you upon discharge, you will be admitted to the hospital for observation and safe recovery at your own expense.

Driver's name _____

Driver's phone number (contact number during treatment time) _____

Do we have permission to discuss your dental care with this person? Yes / No

Alternate driver _____

Alternate phone (contact number during treatment time) _____

Do we have your permission to discuss your dental care with this person? Yes / No

Will your escort wait for you in their car during your dental treatment? Yes / No

and if not, time in minutes for the driver to arrive at the dental office _____ minutes.

Phone number where you (the patient) can be reached later on in the afternoon or evening

Thank you for your cooperation.
